PROJECTS

| AK's Fashionsite (Major Project – 3rd Year)

As part of my third-year major project, I developed AK's Fashionsite, a fashion-focused eCommerce website built using HTML, CSS, JavaScript, PHP, and MySQL. The site features dynamic product listings, a functional cart system, and smooth order processing. I integrated SweetAlert to enhance user experience through interactive alerts and built a mobile-responsive interface with category filtering to improve navigation and usability.

| Swastik PUF Panel Website (Client Project)

Developed a modern, responsive website for Swastik PUF Panel using HTML, CSS, and JavaScript, and deployed it on Netlify. The site highlights company services with a clean layout, smooth navigation, and optimized performance. Collaborated directly with the client on design requirements, branding, and final pricing. Focused on delivering a user-friendly interface that reflects the company's industrial identity.
